

Asian Dysphagia Society (ADS)

A new international medical association established in January 2023 to promote the development of comprehensive care, science, technology, and education about dysphagia* in Asia.

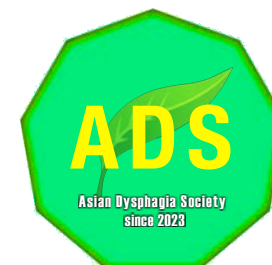

Members are made up of representative national-wide societies related dysphagia in Asia. Currently, participating countries are China, Indonesia, Japan, Korea, Malaysia, Myanmar, Philippine, Taiwan, and Thailand.

* **Dysphagia is the difficulties of eating and swallowing. It is serious problem not only as medical issue but also QOL matter.**

updated 230131 v1.5

ADS carries out the business for comprehensive swallowing care.

1. Create the network of dysphagia care in Asian countries.
2. Hold **International Conference**** once every three years.
3. Set up ADS website for international communication about dysphagia.

**** 1st International Conference: November 9-11, 2023 Suwon, South Korea
2nd International Conference: November 6-8, 2025 Bangkok, Thailand**

If you have any question, please contact to the member society in your country firstly (see the link webpage).
