

Asian Dysphagia Society (ADS)

A new international medical association established in January 2023 to promote the development of comprehensive care, science, technology, and education about dysphagia* in Asia.

Members are made up of representative national-wide societies related dysphagia in Asia. Currently, participating countries are China, India, Indonesia, Japan, Korea, Malaysia, Myanmar, Philippine, Taiwan Thailand, and Türkiye.

updated 240417 v2.2

ADS carries out the business for comprehensive swallowing care

- Create the network of dysphagia care in Asian countries.
- Hold International Conference** once every two years.
- Set up ADS website for international communication about dysphagia.

** 1st International Conference: November 9-11, 2023, Suwon, South Korea

2nd International Conference: November 6-8, 2025, Bangkok, Thailand

3rd International Conference: underplanning, 2027, China

If you have any question, please contact to the member society in your country firstly (see the link webpage).

ADS Office: asian-dysphagia.fujita-hu.ac.jp

* **Dysphagia is the difficulties of eating and swallowing. It is serious problem not only as medical issue but also as QOL matter.**
